### ENGLAND.

CETEWAYO STILL ALIVE. London, August 8 -The British agent at Pieter Martzburg believes that King Cetewayo is still alive, and that the report of his death was put in cir-

culation for the purpose of continuing the agitation in Zululand.

Various witness testified that Dalton was a passenger on the Celtic under the name of Johnson, and he had been in America ten years. He was also called O'Conner when arrested in Bowles' reading-room, London. He had memoranda concerning the manufacture of explosives; he also had a roll of paper similar to some paper around a number of brass taps found on Déasy. An expert testified that the explosive articles which Deasy and Flanagan had when arrested were similar to those used in the attempt to blow up the office of the London Times. They said the articles in question were not suitable for industrial purposes. Informer Lamie testified that he was sworn into the Fenian brotherhood in 1867 by Sylvester Singston. He had sworn to assume arms at a minute's notice in defense of the Irish republic and obey his supe riors. He had also sworn never to divulge the secrets of the brotherhood on pain of death; had attended drills at which sometimes seventy-eight persons were present. He had attended some drills this year. Counsel for defense objected to Lamie's evidence on the ground that it was irrelevant, but the objection was overruled.

Charges to be Preferred.-A Texas Hilton— Indignation of the Mexican People... A Mixed Case. Special to the Gazette.

San Antonio, August S.—It is ru-mored here that serious charges will be shortly preferred against United States District Attorney Guthrie, of the Southern district of Texas.

The Mexicans are very indignant over the order from the lessee of San Pedro Park prohibiting Mexicans from dancing in the pavilion or the grounds. It is said he has had several challenges and him by prominent challenges sent him by prominent Mexican citizens, and he denies having given the order, though the evidence seems to be against him. An indignation meeting was attended by about three hundred Mexicans last night, and a party was organized to tar and feather Kollhid, but they were restrained by the more moderate. We have Mexican citizens occupying the highest positions in all respects, and, as there was no discrimination made by Mr. Kollhill, all left the insult keenly and alike. The park is a public place, belonging to the people, and the Mexicans will put up money to oust Kollhill and restore the park to the public. Kollhill is a German and came here from California one year ago.

The Mexican custons officer at Piedras Negras has refugeed in Texas. His books show that he has not given credit to Captain Monroe, chief contractor on the Mexican extension of the Suprest S the Sunset railroad, for duties paid on goods imported for the railroad forces. The Mexicans come on Monroe for \$10,000 and he resists them, claiming to have paid all his dues to their gov-

### CALDWELL.

A Dead Man Eaten by Hogs and Mutllated Beyond Recognition - - Crop Prospects.

Caldwell, August 8.-Some excitement was created here yesterday by the report that a man was killed on the railway track some miles north of this place. Investigation proved that some one had been killed or died about two miles this side of Yellow Prairie. Nothing could be found to identify the party. He had been dead several weeks. The hogs had eaten him, and destroyed all hopes of ever locating him. He was several yards from the railway and it is thought that he either died from exhaustion or was mur-

The corn crop in this section is more than an average, but the cotton crop is very poor. A bale to four acres is the estimate. Besides the prevailing drouth, the caterpillars have damaged the crop considerably, but the boll worms are the greatest source of grief. In some localities they have destroyed three-fourthsof the crop. One planter, who thought a short while ago that he would market five hundred bales, now thinks he will hardly market two hundred. Corn is selling here at fifty cents, although there is an abundance produced.

# HANGMAN'S DAY.

Joseph Stout Swings Into Eternity for

Rockville Ind., August 8.—Joseph Stout was hung to-day for the murder of Taylor Dunbar in November last. He exhibited the utmost firmness and composure to the last, and did not seem to understand the enormity of his crime. The story of the crime is that Stout accompanied Dunbar in the latter's buckster wagon from Darling-ton on the 24th of November, Stout carrying a gun to do some hunting. He left the wagon and struck through the woods after he had gone a few miles. Dunbar followed the road some distance and then went across in the direction of Stout. Dumbar did not return, and was found later with his skull crushed and several bullet holes in his body. Stout confessed that he took his life for what money he had. Last night Stout rested well and arose with pulse and temperature about normal. He was led to the scaffold at 1 p. m., accompanied by his attorneys, and made a final statement before the crop fell. The fall broke his neck, and death ensued immedi-
